

# YELLOW JACKET® YJ-LTE Intake Filter Screen

**95560**  
1/4" Male x Female Filter Fitting

**95730**  
YJ-LTE™ Refrigerant Recovery System

## Added to 95730 as standard accessory

We have added a filter screen to the YJ-LTE to filter out any deposits, shavings, particles, etc. from entering the compressor and causing premature wear or damage.

It is an exterior dry filter which attaches to the suction port.

It will now be standard in all YJ-LTE units built and is also available as an accessory.
