

YELLOW JACKET® ManTooth Wireless Digital P/T Gauge

67001 Single Pressure Gauge

67002 Dual Pressure Gauge

Simplify and automate measurements, save time, share data and reduce costs

The YELLOW JACKET® ManTooth™ Wireless Digital Pressure/Temperature Gauge provides wireless connection to your smart device so you can test the system without losing refrigerant (no hoses or manifolds necessary)! The free downloadable ManTooth RSA app wirelessly calculates and displays the system's actual pressures, temperatures, superheat and subcooling in an easy-to-read color format on your iPhone®, iPad® or Android™ device.

The YELLOW JACKET® ManTooth™ Single Pressure Wireless Digital P/T Gauge (Part #67001) includes a single hardware device and clamp.

For dual pressure readings, use two of the 67001s or the YELLOW JACKET ManTooth Dual Pressure Unit (Part #67002) which comes with a P/T module, tether unit and two temperature probe clamps. This unit also includes a convenient carrying case which can be purchased separately for the single pressure unit.
