|        |           |                        |                                 |                      |              |
|        |           |                        |                                 |                      |              |
|        |           |                        |                                 |                      |              |
|        |           |                        |                                 |                      |              |
|        |           |                        |                                 |                      |              |
|        |           |                        |                                 |                      |              |
|        |           |                        |                                 |                      |              |
|        |           |                        |                                 |                      |              |
|        |           |                        |                                 |                      |              |
|        |           |                        |                                 |                      |              |
|        |           |                        |                                 |                      |              |

***FSA form will be returned after form is received complete and approved.  
This will be authorization for "Field Scrap".  
Credit will be issued for those items approved only.  
For a list of items not covered for "Field Scrap" see page 2.***

## Warranty Policy

### ITEMS COVERED

Hoses, manifolds, tubing tools, replacement gauges, fittings and adapters, gas and fuel oil test kits, UV dye products, test leads, mechanical thermometers.

### EXCEPTIONS

**Hoses** - Only individual hoses are covered. No 3-Packs are to be field scrapped. Stainless Steel Corrugated Hose Assemblies are not covered under this policy and cannot be field scrapped.

**Manifolds** – YELLOW JACKET manifolds have a one year warranty (lifetime warranty applies only to the manifold bar). For out-of-warranty returns, follow the instructions on the card included in your manifold package or call our customer service department for instructions. If a gauge has failed, replace the gauge and follow the above procedure for credit on failed part. Manifolds with hoses are **not** considered a legitimate “field scrap” item.

**Tools** - All hand tools are covered with the exception of “Tool Kits”. Please “Field Scrap” only the failed part and a credit will be issued for this part only. Oil Pumps 77930 and 77940 are covered under the field scrap policy.

**The following part numbers must be returned to the factory for in warranty repair and return. Please call for a Return Goods Authorization (RGA) # prior to returning.**

- Vacuum Pumps  
93540, 93560, 93580, 93590, 93600, 93610, 93613, 93615
- Recovery Machines  
95100, 95700, 95760, 95762
- Vacuum/Micron Gauges  
69060, 69075, 69080, 69086
- Electronic Leak Detectors  
69336, 69354, 69365, 69373, 69341
- Electronic Scales  
O 68802, 68803, 68812, 68813
- O Electronic Products  
69008, 78050
- Refrigeration System Analyzers  
40812, 40813, 40815
- Leak Monitors  
68004, 68008, 68010, 68011, 68032, 68036, 68091, 68093, 68096, 68097, 68099, 68016, 68024, 68043, 68047, 68028, 68029, 68050, 68052, 68064, 68068, 68094
- Refrigerant Identifier  
68945, 68947
