

A/C System Component Flushing and Recycling Equipment

YELLOW JACKET®

Recycling PULSATOR® A/C Component Flusher (P/N 37613)

- Air operated pulsing
- Ryder required tool
- Meets Hawker-Beechcraft & King Air specifications
- Uses SAFE-FLUSH® A/C Solvent (P/N 37619)
- Lifetime warranty

For
Automotive,
HVAC,
Aviation,
Heavy-Duty
Equipment
and More!

PULSATOR® Flush Gun (P/N 37628)

- Air operating pulsing
- Multi-use, single shot, heat exchanger flusher for A/C components, coils, line sets, oil coolers and more
- Uses SAFE-FLUSH® A/C Solvent (P/N 37619)
- Simple, economical design

Operator and environmentally friendly features make for ease-of-use and a rapid return-on-investment. The high flow rate combined with the patented pulse process will scrub and remove the oils and debris from the parallel paths and micro channels of the most complex components where other methods cannot.

- Recycling-filtering with the flip of a valve to provide for rapid workloads and solvent reuse.
- Two gallon solvent capacity
- Air filter with auto drain
- Cleanable t-strainer
- Activated carbon vent filter
- High volume air purge process

The 37613 Includes:

- Recycling Flusher
- 37618 A/C Adapter Kit
- Two gallons of SAFE-FLUSH A/C Solvent

High flow rate combined with the strong kinetic energy of the patented pulse process will scrub and remove the oils and debris from the parallel paths and micro channels of the most complex components where other methods cannot.

- Perfect for mobile service vans
- One gallon solvent capacity
- Flusher fits in bucket

The 37628 Includes:

- Flush gun
- Two rubber tips
- Step size return adapter
- Return hose
- Recovery bucket

Made in the U.S.A.

YELLOW JACKET® A/C System Component Flushing and Recycling Equipment

Universal A/C Adapter Kit (P/N 37618)

- Perfect for flushing, pressure and vacuum testing A/C components
- Fits most foreign and domestic hose ends, component tube studs and manifolds

SAFE-FLUSH® A/C (P/N 37619)

- Premium A/C flush solvent
- Breaks down oil deposits
- For use with air operated Pulsator Flushers and other flush tools and methods

Engine Cooling PULSATOR® (P/N 37629)

- Powerful pulse process
- Complete system flush
- No chemicals needed

One out of every four vehicles on the road today has a neglected, contaminated, and dirty cooling system. Traditional fluid exchange “flushing” and other methods are not removing these restrictive buildups and damaging contaminants. Stop changing parts and chasing symptoms; fix the problem, earn profits, and please your customers by cleaning, clearing, and restoring the entire engine cooling system (radiator, heater core, engine block, heads, and intake). Also proves to be an excellent tool for external air path cleaning of radiators, condensers, and coils; and will not damage the fins.

- Environmentally and user friendly
- CARB Compliant – Low VOC
- DOT – not regulated
- 4-1 gallon per case with 2 filters
- (Filters used with 37613)
- Miscible with all refrigeration oils
- Compatible with all systems seals

Are you tired of repeat issues?

- Call backs
- System problems
- Water pump failures
- Parts erosion
- Clogging issues
- Erratic cooling
- Hot spots
- NO HEAT !!!

UPC #	Description
37613	PULSATOR® Solvent Recycling A/C Component Flusher
37618	Universal A/C Adapter kit
37619	SAFE-FLUSH® A/C
37628	PULSATOR® Flush Gun
37629	Engine Cooling PULSATOR®
