

Electric/Manual Lightweight Flaring Tool

- *For use with electric/power drill (with torque adjusted function only)*
- *Handle included for manual flaring*
- *Side handle locks movement of the yoke assembly during flaring*

The aluminum body of the YELLOW JACKET Lightweight Electric/Manual Flaring Tool makes it half the weight of traditional steel designs. For super fast flaring, remove top manual handle and replace with electric drill bit.

- The hardened, polished eccentric cone with 45° flare produces a rolling action for uniform flare walls without galling in 1/4" to 3/4" O.D. tubing.
- Lightweight but strong aluminum bars - each hole flare tested more than 1000 times
- Built-in slide gauge to easily meet the desired flare sizes without the guesswork
- Large feed screw handle for secure grip and smooth turning with little effort
- Built-in clutch release to prevent over-torquing
- Recommended for soft materials such as copper and aluminum
- Blow-molded carrying case included

UPC #	Kit Swaging/Flaring Sizes
60241	Imperial: 6 positions for 1/4, 5/16, 3/8, 1/2, 5/8 and 3/4" O.D. tubing
60242	Metric: 6 positions for 6, 8, 10, 12, 16 and 18 mm O.D. tubing
UPC #	Replacement Parts
60432	Lightweight 60241/42 bar, inch
60433	Lightweight 60241/42 bar, metric
60243	Replacement side handle for 60241/42
60244	Replacement top handle for 60241/42
