

- 1. In your web browser, go to the following link: https://www.yellowjacket.com/downloads/windows/firmware/Radio/YELLOW\_JACKET\_Radio\_Up dater.zip
- 2. Download the YELLOW\_JACKET\_Radio\_Updater.zip file.
- 3. Unzip the **YELLOW\_JACKET\_Radio\_Updater.zip** folder to a safe location and open the extracted folder.
- 4. Open Yellow\_Jacket\_Updater\_Installer.bat.

**Note:** If the "Acquire a developer license" message appears, press **Enter** and sign in with administrator credentials. This will redirect you to *Developer Mode*. Click the sliding button to enable *Developer Mode*. Doing so allows the application to be installed. Once *Developer Mode* has been enabled, repeat **Step 3**.

- 5. Once the application successfully installs, press Enter to close the terminal.
- 6. Search Yellow Jacket Radio Updater in your Windows search bar and open the application.
