

## 61001 Hydrocarbon Charging Kit

### Bottle Compatibility

The table below provides details on the Hydrocarbon Charging Kit bottle compatibility and corresponding valve O-ring configuration:

<b>Bottle Manufacturer</b>	<b>Manufacturer P/N</b>	<b>61008 Bottle Valve O-Ring Configuration</b>
Enviro-Safe Refrigerants, Inc.	8070 (R-600a Sealing)	(2) O-rings
True Manufacturing Co., Inc. (with 61009 Bottle Adapter)	969292 & 815869	(2) O-rings
ICOR International	R-290-14 & R-600A-14	(2) O-rings
Chem Penn	111032 & 111034	(1) O-ring
Mastercool Inc.	91050-290-12 & 91050-600-12	(1) O-ring
Nu-Calgon	4175-21 & 4175-31	(1) O-ring
National Refrigerants, Inc.	014R290 & 016R600a	(1) O-ring

\*Bottles requiring piercing-style valves can be used with the kit but require the corresponding valve to be purchased with the bottle(s).
