

Vacuum Y with Core Removal Tool

YELLOW JACKET®

P/N 93904

Never Overtighten the Schrader Core Again!

Reduce the time it takes to pull and hold a vacuum; leaving a tight and dry system

Save time with the **YELLOW JACKET® Vacuum Y with RealTorque® Core Removal Tool (CRT)**! Our patent pending design features the RealTorque® CRT to remove the Schrader core from the system to ensure faster evacuation while also guaranteeing the system will remain leak free. Plus, the dual path provides twice the evacuation volume. Vacuum Y is available separately or in the Deluxe MaxFlow™ Evacuation Kit.

Features & Benefits

- Removes Schrader valve, eliminating obstruction for faster evacuation
- 'Y' design doubles evacuation path
- Available in 1/4", 5/16" and 1/4" with 5/16" adapter
- Two 3/8" vacuum ports for faster evacuation
- RealTorque® Core Removal Tool with torque limiting technology to properly tighten Schrader cores
- Solid brass construction with steel tip
- Ball valve handle for easy open and close
- For use with all refrigerants - including A1, A2L and A3
- Patent pending design
- One year warranty
- Made in USA 

P/N	Description
93901	Vacuum Y w/ RealTorque® CRT 1/4" X 3/8" X 3/8"
93902	Vacuum Y w/ RealTorque® CRT 5/16" X 3/8" X 3/8"
93904	Vacuum Y w/ RealTorque® CRT 1/4" w/ 5/16" Adapter
93914*	Deluxe MaxFlow™ Evac Kit: 93904, (2) 60" 1/2" Hoses and (2) 3/8" MFL X 3/8" FFL Straight Ball Valves
93916*	Deluxe MaxFlow™ Evac Kit: 93904, (2) 60" 1/2" Hoses and (2) 3/8" MFL X 3/8" FFL 45° Ball Valves

* See details for each on back of product sheet

Deluxe MaxFlow™ Evacuation Kit

YELLOW JACKET®

P/N 93914

Deluxe MaxFlow™ Evacuation Kit 93914 includes:

93904	1/4" Vacuum Y CRT w/ 5/16" Adapter
20660	(2) 60" 1/2" Heavy Duty Charging Hoses
93846	(2) 3/8" MFL X 3/8 FFL Straight Ball Valves

P/N 93916

Deluxe MaxFlow™ Evacuation Kit 93916 includes:

93904	1/4" Vacuum Y CRT w/ 5/16" Adapter
20660	(2) 60" 1/2" Heavy Duty Charging Hoses
93835	(2) 3/8" MFL X 3/8 FFL 45° Ball Valves

The ULTIMATE Solution for *FAST* Evacuation - up to 10x faster!

Accelerate your evacuation process by 10x with the **YELLOW JACKET® Vacuum "Y" with RealTorque® Core Removal Tool (CRT)** and 1/2" hoses. Available now in a convenient kit, the **Deluxe MaxFlow™ Evacuation Kit** is available in two versions to best fit your needs - 93914 kit with straight ball valves or the 93916 with 45° ball valves.

Features & Benefits

- Time Saving Performance:
 - 10x faster than 1/4" hose evacuation
 - 6.5x faster than a single 1/2" hose evacuation
- Can be used for systems with 1/4" or 5/16" connections
- 1/2" diameter hose creates full, quicker flow
- Includes a Vacuum Y with RealTorque® CRT
- Heavy duty hose will not collapse
- Vacuum rated to 20 microns
- For use with all refrigerants - including A1, A2L and A3
- One year warranty
- Made in USA
